Travel Certificate

Certification to carry Sondelbay® (teriparatide) injection pen for medical treatment.

We hereby confirm that the undermentioned person suffers from a chronic disease and needs continuous treatment with Sondelbay (active ingredient: teriparatide)

- To ensure continuity of medical care it is absolutely essential to transport the prefilled injection pen with the hand luggage in the cabin of the airplane.
- Sondelbay should be stored in a refrigerator (2° C-8° C) but can be stored at room temperature up to 25° C for a maximum of 3 days.

The solution in the prefilled injection pen is not under any pressure and therefore safe to carry during flights.
